SMARTER CHOICE

Why Consolidate on XSW Tools?

Compare the fragmented cost of buying isolated SaaS apps against our unified studio.

Fragmented Subscriptions ~$90 / month (Estimated)
Multiple tools, multiple logins, higher cost.

Tool	Price
Adobe Acrobat Pro PDF operations	$23.99 / mo
Remove.bg Background cutouts	$9.00 / mo
ChatPDF / AI Reader Document analysis	$15.00 / mo
DocuSign Digital signatures	$10.00 / mo
Ahrefs / Semrush Lite Keyword search data	$29.00 / mo

Total: ~ $90 / month
Fragmented tools, separate logins, higher overhead.

VS

XSW Tools ₹299 / month (~$3.5)
All 9 Studios, One Powerful Platform.

- ✓ All 9 Studios unified under 1 single login
- ✓ Zero telemetry client-side processing
- ✓ 40+ production tools with unlimited conversions
- ✓ 25 GB cloud storage & priority compute queue
- ✓ Save over 90% in monthly software overhead

PRIVACY & SPEED

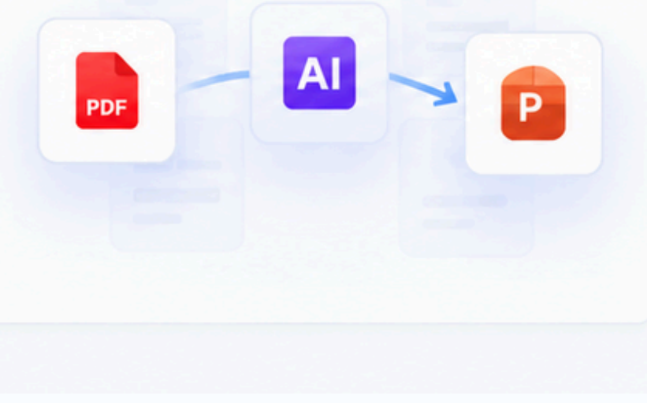
Enterprise Grade Privacy & Sub-150ms Speed

Built on WebAssembly and modern zero-telemetry architectures.

Sub-150ms Execution
Client-side WASM engine processes PDF restructuring, image compressions, and QR renderings right on your device for instant results.

Zero Model Training
Your confidential documents and uploaded images are never stored or used to train third-party AI models. Scratch queues auto-purge within 24 hours.

Interconnected Studio State
Send an output file from PDF Studio directly into AI Document Summarizer, or from Background Studio into Office Slide Builder with one click.



Your Questions, Answered

How does XSW Tools compare to standalone tools like 10015.io or Adobe?
Unlike simple static utility pages, XSW Tools integrates 9 full-fledged software studios into a synchronized, cloud-synced workspace. You get persistent file queues, AI-assisted summaries, neural background matting, e-signatures, and cross-studio pipelines for just ₹299/month.

Is the Free tier truly free forever?
Yes, our Free plan costs ₹0 forever. It gives you immediate access to all 9 studio interfaces, 5 free AI document operations, 5 background matting cutouts, 20 vector QR codes, and 1 GB cloud storage without requiring a credit card.

Are my confidential business files safe and protected?
100% We employ zero-telemetry architectures and AES-256 cryptographic standards. Scratch files generated during tool sessions are strictly held in private, ephemeral containers and automatically destroyed after your session finishes or after 24 hours.

Where is the main studio workspace located?
The full workspace is available at /app. Once inside, you can access your recent jobs, inspect available quotas, search 40+ tools with Ctrl+K, and run all 9 studios.

Get started today and unlock the power of our solutions.
